THE subscriber has received again a ciothes I mangle; of which he can have any made to order. This mangle will save agreat deal of work on a washing day, as not only can clothes be wring quicker and easier than by hand, but all except fine clothescan be mangled through rollers by merely turning a crant, which will make them amooth mough, and saves a great deal of ironing. Have tried one on the same principle for the last ten years and all who have one, would not so without it.

Also, patent springs for curtains and valances, by which either of them can be fastened better than by the old way; the mangle can be tried by any one wishing to purchase.

"Watches and Jewelry!"

and excreting organis or use according to the virus and the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutions disorder. The spleen, the kidneys, and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the nextous infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the Carla. But in this effort it fails. Then the Excus follows, in which the blood leaves the contral organs and rushes to the surface, as if in another effort to expel the irritating poison through the other great excretory—the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of strength to repeat the hopoless offert another day. These are the fits or paccyanas of Fevras and Acus. Such constitutional disorder will of course undermine the health if it is not removed. We have labored to find, and have found, as antidote.

Ayer's Ague Cure,

Positive Fact.

THE LARGEST ASSORTMENT

chich neutralizes this malarious poison in the slood, and stimulates the liver to expel it from the body. As it should, so it does care this at-lictive disorder with purfect certainty. And is does more, or rather does what is of more ser-does more, or rather does what is of more service to those subject to this infection. If takeling it is asserted, and thus keeps those who used it fine from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cares, but protects from, the great variety of affections which are induced by this mailgrant influence, such as Remittent Fever, Chill Fever, Dumb, or Masked Ague, Perfodical Headache, or Bilkous Headache, Billous Fevers, Neuralgia, Rheumatism, Gout, Bilminess, Toothache, Larache, Catarria, Asthma, Palpitations, Painful Affections of the Spiene, Hysteries, Colle, Faralysis, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "Agun Curn" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the exceptories to expel the virus from the system; and these organs by degrees become habited to do this thek office of their own accord. Hence arises what we term acclusation. Time may accountilish the same end, but often life is not long enough, or a careful of the mathematical in the same end, but often life is not long enough, or the same end, partotes in a so to so, cooling, a sacrificed in the attempt, while this "Ao Us Curin" does it at once, and with sufety. We have great reason to believe this is a surer as well as safer remedy for the whole class of distantial which are caused by the minamatic inflormation of the manual content of the minamatic inflormation of the minamatic inflormation of the minamatic inflormatic in the minamatic inflormatic inflormatic in the minamatic inflormatic inflorm

DR. J. C. AYER & CO. LOWELL, MASS. PRICE ONE DOLLAR PER BOTTLE.

Ayer's Cherry Pectoral has won for itself such a renown for the care of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of fit virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
